COMPANY PROFILE

WELCOME TO OUR COMPANY

Company Background

Manqubuzane was founded in 2015 and started off as a general supply services company in 2016 and by 2019 had established itself in the hospitality sector.

The company operates as a home-based cooked food as well as perishable goods service provider, while our focus is catering for and within the hospitality industry.

We operate as a micro-restaurant which serves a variety of African Cuisine, including a shisanyama, as well as offer catering services, with our core business base at Rockville, Moroka in Soweto.

We are a township business which was established within communities from previously disadvantaged backgrounds. Therefore, we understand the need for people to enjoy themselves cost-effectively, yet hustle-free and with a peace of mind, because most South Africans perceive hospitality as a luxury they cannot afford or must save-up for before they can plan to have a leisure experience. Our company is there to provide opportunities as well as easier ways to make outings accessible and possible for everyone.
